BUSINESSES ARE STOCKED FULL OF HEALTHY CONTROL WITH SAP BUSINESS ONE

Kilimani Greengrocers and Sundries Limited imports, markets, and distributes world-renowned brands of snacks and processed food. Working with ACeTeK, they opted to implement SAP Business One to improve stock control, provide product tracking, and produce customizable reports.

Objectives

- Kilimani Greengrocers and Sundries' previous system didn't provide the control they needed.
- A powerful and scalable ERP was required that could provide custom reports.

Why SAP and ACeTeK

- SAP Business One is highly recommended in the consumer products industry.
- ACeTeK provided a partnership as well as a strong relationship.
- There has not been a single query that ACeTeK has not been able to provide a solution to.

Benefits

- Since implementation, reports are now customizable and easy to produce.
- Control over inventory has increased, which has boosted warehouse operational efficiency.
- Inventory tracking and reordering has improved.
- Automated notifications and alerts ensure issues are addressed quickly.
- Reporting to tax authorities is easier than ever with predefined tax groups.
- SAP Business One provides space for growth.
