

**STRENGTHENED
COORDINATION**
thanks to SAP Business One

“ Together, SAP Business One and ACETeK are your success story!”

Rajesh Barad - Director of Business Analytics at Kisumu Concrete Products

CONSTRUCTING CONVENIENCE AND CONTROL WITH SAP BUSINESS ONE

Supplier and producer of construction aggregates and concrete products, Kisumu Concrete Products (KCP), turned to ACETeK to help consolidate processes. Since implementing SAP Business One, a higher level of internal coordination has been attained.

Objectives

- Previously, all KCP's processes were not being consolidated, causing inaccuracies.
- Coordination was a big issue.
- Keeping track of finances was problematic.
- KCP needed a reliable ERP to consolidate processes and improve reporting.

Why SAP and ACETeK

- SAP Business One came highly recommended by business partners and had all the features KCP needed.
- ACETeK flawlessly implemented SAP Business One and continues to provide solutions to any issues that may occur.

Benefits

- SAP Business One now provides increased visibility over KCP's entire business.
- Control over business processes has improved.
- Inventory levels, maintenance, and services are easily accessible.
- Reporting is easier, which aids decision making.
- Production data has improved, so orders can be delivered on time, everytime.
- Better business plans can be designed thanks to SAP Business One.
