with SAP Business One

**WHEN INTEGRATING SAP BUSINESS ONE BUSINESSES OFFLOAD SLOW PROCESSES**

When providers of logistic solutions and services, Liberty ICD, needed full integration across their business, they turned to ACETeK to help them implement SAP Business One. They have since streamlined their operations and, as a result, improved their customer relations.

**Objectives**

- Previously, Liberty ICD was experiencing a lack of speed across their business.
- Different departments were not consolidated, which meant time was wasted duplicating data.
- Liberty ICD needed an integrated system that could link all aspects of their business together.

**Why SAP and ACETeK**

- SAP Business One came highly recommended.
- ACETeK made the integration process smooth and easy.
- All changes are quickly addressed by ACETeK, and Liberty ICD has never had an issue with them.

**Benefits**

- Since implementation, operations and finances are seamlessly linked together.
- Reporting is fast and reliable, so management can now make important business decisions quickly.
- Data entries are can be processed quickly.
- All business processes are more efficient, saving time, money and removing inaccuracies.
- Customer relations have improved thanks to SAP Business One.
