

“ ACEteK understood our needs and helped us switch to SAP Business One. They have trained our staff and have held our hand throughout the journey.”

Manish Shavadia - Chief Accountant at Mayers Natural Spring Water

STRENGTHENED COORDINATION

thanks to SAP Business One

SAP BUSINESS ONE - THE SOURCE OF BUSINESS COOPERATION

Natural spring water company, Mayers Water, partnered with ACEteK to implement SAP Business One to fulfill specific unmet requirements. Mayers Water has since increased import control and synchronized their production facility with their headquarters.

Objectives

- Mayers Water’s previous system could not meet their business requirements.
- There was no consolidation between the production facility and headquarters.
- An integrated ERP was needed to remove cooperation issues, enhance control and improve reporting processes.

Why SAP and ACEteK

- SAP Business One is a scalable ERP with cloud integration.
- SAP Business One’s process mapping was perfect for Mayers Water.
- ACEteK is a local company with experience in Mayers Water’s industry and could help customize SAP Business One to match Mayers Water’s needs.

Benefits

- Mayers Water now has a live view of stock, which provides the team with confidence that everything is in order.
- The reporting process is synchronized across all departments.
- Reports are easy to produce and customizable.
- Import control has increased, and inventory and production are monitored in real time.
- SAP Business One provides Mayers Water with more efficient financial and tax reporting capabilities.
