

“SAP Business One has changed the way we are doing business for the better.”

Vinesh Vekaria – Director at Mineral Enterprises Limited

INCREASED MOBILITY
thanks to SAP Business One

EXTRACTING REAL-TIME DATA WITH SAP BUSINESS ONE

Mining and mineral ore trading company, Mineral Enterprises Limited (MEL), needed a system that could help them make decisions quickly to keep up with international standards. With SAP Business One and ACeTeK, MEL now has access to the insight and analyzes needed to do just that.

Objectives

- MEL was experiencing issues with their previous system.
- A new stronger and more reliable ERP system was required that could provide MEL with better insights.

Why SAP and ACeTeK

- SAP Business One was the best suited system for MEL.
- ACeTeK gave a great presentation, set up SAP Business One exactly the way MEL wanted it and has provided invaluable ongoing support.

Benefits

- Since implementation, management can make important business decisions easier and faster.
- MEL now has greater control over data and reports thanks to real-time information and customization.
- The reporting process has improved, so management can focus on analyzing data rather than compiling it.
- Cloud based data has increased mobility.
- SAP Business One's add-ons provide MEL with the space and tools to grow.
